

Serie of UV auxiliaries - additives, adhesion promoters, thinners and accelerators — for UV inks and varnishes

Cod.206097 UV ADDITIVE FLEX:

Liquid additive to be added to UV inks and varnishes to improve flexibility.
It is recommended to use max. 5%

Cod.206098 UV ADHESION PROMOTER:

Liquid additive to be added to UV inks and varnishes to improve adhesion on critical substrates and to improve scratching fastness.
It is recommended to add max. 5%
Pot-life of mixed product will be about 8h.
It is suggested to mix just the necessary quantity to be used.

Cod.206099 UV REDUCER:

Liquid additive to be added to UV inks and varnishes to improve spreading.
It helps to eliminate surface defects like "orange skin" and "pinholes".
It is recommended to add max. 3%

Cod.206209 UV ACCELERATORS:

Liquid additive to be added to inks and varnishes to improve curing.
It is particularly suitable to prevent yellowing after UV curing.
It is recommended to add max. 5%

Cod.206208 UV ACCELERATOR HR CONC.:

Liquid additive to be added to UV inks and varnishes in order to increase the reactivity and improve polymerization in a shorter time.

It is suitable to prevent yellowing after UV curing.

Cod.206200 VU REACTIVE THINNER:

100% UV thinner: it is suitable to reduce viscosity of inks and varnishes by maintaining the same reactivity

Storage and shelf life:

Protect from extreme temperatures and from direct light during use.
It is recommended to keep the original closed container in a fresh, dry, dark place.
Shelf-life: 12 months

Packing:

Black plastic containers: 1 and 5 KG

NOTE

Our technical advice whether spoken, written or through test trials corresponds to our current knowledge and provides information about our products and use. ENGLER ITALIA cannot, however, guarantee the finished results because ENGLER ITALIA exercises no control over those factors which may determine the use and application of the product at the user's headquarter.

Unless specifically agreed in writing, ENGLER ITALIA is not, therefore, liable for any loss or damage deriving from an unauthorized use of the product.

The selection and testing of the product is exclusively user's responsibility. Should any liability claim arise, they shall be limited to the value of goods delivered by ENGLER ITALIA and utilised by user with respect to any and all damages not caused intentionally or by gross negligence.
